Kepler - Bug #2569

Popup (context) menu do not appear for relations and connections

10/23/2006 10:30 AM - Dan Higgins

Bugzilla-Id:	2569		

Description

A right click on relations (vertexes) and connections does not bring up a popup menu. This is probably just a configuration issue since these do appear OK in Ptolemy.

History

#1 - 04/30/2009 05:05 PM - Christopher Brooks

Fixed by editing
common/configs/ptolemy/configs/kepler/uiContextMenuMappings_en_US.properties

The way to fix these is to run in vanilla Ptolemy, look at the menu
and then run in Kepler and make sure that the translation in
uiContextMenuMappings_en_US.Properties is correct.

To debug:

1. 5) DEBUGGING:
2. Edit module-manager/src/log4j.properties and add the following line:
3. log4j.logger.org.kepler.gui.KeplerContextMenuFactory=DEBUG
4. Note that the Context menus are not processed until a right click on
5. an actor occurs.
6. See https://kepler-project.org/developers/reference/using-commons-logging
