Description

the data creation wizard is producing invalid eml for ratio and interval attributes. the unit element is required.

<error>
cvc-complex-type.2.4.a: Invalid content starting with element 'precision'. One of '{"":unit}' is expected.
</error>

<attribute id="1082049978760">
<attributeName>att2</attributeName>
<attributeLabel>att2</attributeLabel>
<attributeDefinition>att2</attributeDefinition>
<measurementScale>
<ratio>
<precision>1</precision>
<numericDomain>
<numberType>integer</numberType>
</numericDomain>
</ratio>
</measurementScale>
</attribute>
<attribute id="1082049978761">
<attributeName>att3</attributeName>
<attributeLabel>att3</attributeLabel>
<attributeDefinition>att3</attributeDefinition>
<measurementScale>
<interval>
<precision>.1</precision>
<numericDomain>
<numberType>real</numberType>
</numericDomain>
</interval>
</measurementScale>
</attribute>

History

#1 - 04/15/2004 02:24 PM - Dan Higgins

Bug fixed; lookup in list used the formated text (initial caps, etc) rather than the actual text in unitDictionary. Thus resulted in the complete skipping of unit tag and resulting invalid eml.
