Bugzilla-Id:	4924		

Description

If you try to tag a run in the Workflow Run Manager when provenance is turned off, you get errors.

History

#1 - 04/12/2010 01:02 PM - Derik Barseghian

Tagging should probably implement ProvenanceEnabledListener to disable the ability to tag a run when provenance has been disabled. I'm imagining the tagging text field showing a warning message, and the drop down list no longer drops down.

#2 - 04/15/2010 01:11 PM - Derik Barseghian

fixed in r23719. context now switches to workflow when provenance is disabled.
