Description

I get the following when I try to run the reporting module:

```
[compile] Compiling 60 source files to /Users/sean/Development/build_run_manager/reporting/target/classes
[compile] /Users/sean/Development/build_run_manager/reporting/src/org/kepler/reporting/rio/test/ReportTest.java:53: cannot find symbol
[compile] symbol  : class StaticReportItemHR
[compile] location: package org.kepler.reporting.rio
[compile] import org.kepler.reporting.rio.StaticReportItemHR;
[compile]                                  ^
[compile] /Users/sean/Development/build_run_manager/reporting/src/org/kepler/reporting/rio/test/ReportTest.java:54: cannot find symbol
[compile] symbol  : class StaticReportItemText
[compile] location: package org.kepler.reporting.rio
[compile] import org.kepler.reporting.rio.StaticReportItemText;
[compile]                                  ^
[compile] /Users/sean/Development/build_run_manager/reporting/src/org/kepler/reporting/rio/test/ReportTest.java:132: cannot find symbol
[compile] symbol  : class StaticReportItemHR
[compile] location: class org.kepler.reporting.rio.test.ReportTest
[compile]         Item hrItem = new StaticReportItemHR();
[compile]                                   ^
[compile] /Users/sean/Development/build_run_manager/reporting/src/org/kepler/reporting/rio/test/ReportTest.java:136: cannot find symbol
[compile] symbol  : class StaticReportItemText
[compile] location: class org.kepler.reporting.rio.test.ReportTest
[compile]         Item textItem = new StaticReportItemText();
[compile]                                    ^
[compile] Note: /Users/sean/Development/build_run_manager/reporting/src/org/kepler/reporting/rio/test/ReportTest.java uses or overrides a deprecated API.
[compile] Note: Recompile with -Xlint:deprecation for details.
[compile] Note: Some input files use unchecked or unsafe operations.
[compile] Note: Recompile with -Xlint:unchecked for details.
[compile] 4 errors
```

My guess is that the subtypes of StaticReportItem are not checked into SVN.

History

#1 - 06/02/2009 04:44 PM - debi staggs

I had added some additional classes to this test, but decided not to use them for now. This is what was causing the issue. The references that were causing the problem have been removed.

#2 - 03/27/2013 02:25 PM - Redmine Admin

Original Bugzilla ID was 4125
