Description

(Default theme)

History

#1 - 10/25/2013 03:39 PM - Lauren Walker

- Tracker changed from Support to Feature

- Subject changed from Load in low-res background images before the high-res images via Javascript to Load in low-res background images before the high-res images via Javascript

#2 - 10/25/2013 04:28 PM - ben leinfelder

- Status changed from New to Closed

Now showing the image only when it is done loading. uses a greyish background until the image loads so that the white text can be read.
