Target version:	EML2.0.0rc3	**Spent time:**	0.00 hour
Bugzilla-Id:	634		

Description

I can't remember what we decided on documenting "references" elements inside the schemas. They are currently not documented.

History

#1 - 10/25/2002 11:09 AM - Matt Jones

Should be done for the 2.0.0 release.

#2 - 10/29/2002 02:59 PM - Matt Jones

Completed. All references elements now use res:ReferencesGroup, which contains the documentation for the references element. No instance file changes are needed for this change, it is purely doen for ease of maintenance of the schemas.
