After modifying the classpath delimiters in the JNI code the webclient version of jalama seems to work fine on linux under the 1.4.1 version of Sun's jdk. Matthew did some testing on win XP with 1.4.1 with little success, whereas I have jalama/webclient running on win 2000 with 1.4.1_01. After resolving the Matthew's XP issues I'll mark this bug as fixed - for now worksforme.

#2 - 03/10/2003 09:28 AM - John Harris

reopened till the win xp issues are resolved.

#3 - 03/11/2003 01:14 PM - John Harris

both the jalama webclient and mozilla renderers work with the sun jdk 1.4.1
