VegBank - Bug #1118

strutify the certification form and possibly change the way log-in/cookie are done

07/22/2003 03:43 PM - Michael Lee

Description

Upgrade the system that we use to log on users, change user info, request certification, etc. This is a weak point in the system right now, errors and the like are common at the moment. (Errors are reported now in retrieving password, registering, and requesting certification: all separate bugs which should have been resolved by the time this bug is dealt with).

Something more rebust and seamless would be nice for interacting with the userDatabase and the website. Any other comments, Gabe?

History

#1 - 11/22/2003 12:32 AM - Michael Lee

make the system more robust

#2 - 03/02/2004 11:41 AM - Gabriel Farrell

Think this is closed but let mark decide

#3 - 05/04/2004 02:33 PM - P. Anderson

All of this and more is done. Among the working are Registration, Login, Certification, Profile Update and Password Update.

#4 - 01/31/2005 02:53 PM - Michael Lee

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
