<b>Description</b> this bug being resolved helps bug 1184  I think the priority of this is lower, as the panel can email me, Michael, and I will grant certification through the command line interface. It works quickly, and the rate-limiting step will be the panel deciding on certification requests (bug 1184)  (from a Peet email, Date: Mon, 28 Jul 2003 23:26:59 -0400 (EDT)) 3) Do we have clean documentation on how we actually accomplish the certification when the review committee has voted yes? or for that matter no? I should be told how to set the certification level on my own. Harris once told me, but am not sure if this is still valid, or even where I put that email.

changed from components that are to be deleted to "misc" so that bugs don't get deleted with component. Sorry for all the email.
