Category:	morpho - general	Estimated time:	0.00 hour
Target version:	Postpone	Spent time:	0.00 hour
Bugzilla-Id:	1199		
Description			
Split data package wizard into two separate wizards: "new data pkg" wiz and "data import" wiz			
User first defines data package, then returns to morpho screen, and is advised to start data import wizard if he/shee needs to include data.			

History

#1 - 11/03/2003 04:15 PM - Matthew Brooke

oops - forgot to assign to me

#2 - 11/05/2003 10:13 AM - Dan Higgins

As part of our discussions, I think we agreed that the 'data import' wizard would include some capability to create references/links between table. i.e. one would be able to somehow link a taxon symbol column in one table with symbol/full_name columns in another table.

interface/gui for this - unknown; probably will require bringing up a second 'TextImport Wizard' like display to select columns.

per Dan's comment above - this is covered in bug [#1201](#), although Dan provides additional detail here

#4 - 01/05/2004 11:24 AM - Matthew Brooke

done in 1.5alpha1 release
