Description

Attempt to rebuild mde java files using VisualCafe 4 reports interface TableSelectionListner not found. This interface is also not found in current documentation. I suspect that the interface name was changed during java swing finalization (or it is missing from src package)

History

#1 - 07/03/2000 04:25 AM - Matt Jones

need to delete FormView.java and FormViewTable.java from source. It is experimental and not used. Facotr it out so it doesn't interfere. Reassigned to nottrott.

#2 - 08/20/2000 08:48 PM - Matt Jones

no longer using this code, so bug no longer exists.

#3 - 08/23/2000 10:56 AM - Matt Jones

This issue has been fixed, and its operation was verified.

#4 - 08/23/2000 10:58 AM - Matt Jones

Closed bug because issue is fully resolved.
