Morpho - Bug #1209

Add functionality to EML 2 stylesheets written by Jing so that they can be used by Morpho and make other changes

11/17/2003 10:29 AM - Saurabh Garg

Description

Two tasks to be done here..
1. First is to fix the stylesheets so that view in Java Browser is correctly rendered. The columns inside tables don't lineup correctly currently.
2. The second change is to add functionality to eml2 so that they take parameters for returning html with descriptions of entities and attributes. This is required for viewing entity and attribute details inside Morpho.

History

#1 - 02/19/2004 09:49 AM - Saurabh Garg

From Bug# 1243

Access rule for "public" is not showing up properly in the metadata display screens or the exported metadata.html file. Probably a problem in the xslt.

#2 - 02/19/2004 09:54 AM - Saurabh Garg

From bug # 1285:

If user double clicks on the email address or Web site link within a Data Set Description component (e.g., Prinicpal Investigator or Asssociated Party), the link does not resolve to an email program or Web site.

------- Additional Comment #1 From Saurabh Garg 2004-01-30 10:42 -------

This change needs to be made in XSL. So that no links are shown in Morpho.

#3 - 02/19/2004 09:54 AM - Saurabh Garg

- Bug 1285 has been marked as a duplicate of this bug. ***

#4 - 04/13/2004 10:33 AM - Saurabh Garg

The stylesheets work fine for Morpho now. I am changing target milestone to v1.6
Thing left to do is to check if same set of stylesheets can be used by both Metacat and Morpho.

#5 - 05/26/2005 12:22 PM - Saurabh Garg

Closing this bug as same stylesheets have been used by both Morpho and Metacat since last Morpho release.
