#### Description

I discovered a problem with the 'Open' button not working when I first started Morpho 1.4. Clicking the button several times seems to correct the problem. (The problem is a null pointer exception in the LocalQuery class.)

Investigation showed that this is a somewhat obscure problem due to having eml2.0 documents in the local file store (from development of Morpho 1.5). It turns out that older versions of Morpho throw the exception when hitting a document in the local file store without a DOCTYPE (i.e. schema based metadata). Normally, Morpho 1.4 would never save such a document to the local store, but updating to version 1.5, saving an eml2.0 doc and then using version 1.4 can result in such cases.

#### History

##### #1 - 12/02/2003 08:16 AM - Dan Higgins

This bug does not occur in the current version (Morpho 1.5beta1)

##### #2 - 01/17/2013 02:21 PM - ben leinfelder

very old problem

##### #3 - 03/27/2013 02:16 PM - Redmine Admin

Original Bugzilla ID was 1228
