Target version:	Postpone	Spent time:	0.00 hour
Bugzilla-Id:	1258		
Description We discussed the ontology storage feature for the ecogrid system at the last meeting in Santa Barbara (Oct 2003). See the summary from that meeting for details, but highlights are: 1) Store ontologies as OWL XML docs 2) Query needs 2a) string match to find terms and definitions 2b) graphic based ontology querying (ie, navigate ontology) 2c) support reasoning based query operators (eg, subsumption) Suggested at the meeting that we implement a grid service version of the SWI package for querying.			

History

#1 - 11/29/2005 11:15 AM - Matt Jones

Delay ontology work until after the first full ecogrid release.
