Bugzilla-Id:	1279		
Description <p>1) Reported by Andrea: In Morpho Editor, if user makes changes and then closes the editor, a modal error window opens with the label: 'Validation Problem!' and message: 'Exception Warning: schema references.4: Failed to read schema document './xsd/eml.xsd'.....'</p> <p>2) Reported by Andrea: After exiting the Morpho editor, I have seen the message: "This entity has NO distribution information", displayed in a modal dialog that requires a mouse click. Even if I don't want to add distribution info, I am still forced to interact with this dialog. This happens intermittently. Under what circumstances is 'distribution information' a required field?</p> <p>3) In Morpho Editor, if user makes changes and then closes the editor, a modal error window opens with the label: 'Validation Problem!' and message: 'Exception cvc-complex-type 3.2: Attribute's editor is not allowed to appear in element 'para'. Do you want to continue exiting the Editor?' Another variant: 'Exception:cvc-enumeration-valid: Value " is not facet-valid with respect to enumeration '[place,stratum,temporal,theme,taxonomic]' Do you wish to continue exiting the Editor?'</p> <p>My comments: I haven't seen 1) and 2) before. But I have run into 3) sometimes</p>			

History

#1 - 01/23/2004 02:22 PM - Saurabh Garg

3) was reported by Rick Reeves

#2 - 01/29/2004 02:43 PM - Dan Higgins

Item 3) has been fixed (extra 'editor' attribute now removed from all nodes)

#3 - 01/29/2004 05:10 PM - Dan Higgins

Item 2 was a bug that has been eliminated

#4 - 04/04/2004 01:18 PM - Dan Higgins

Item 1 was problem with spaces in path to xsd files - fixed.

It is believed that these problems have been fixed (except for old, invalid packages that may be on some old test systems).

#5 - 03/27/2013 02:16 PM - Redmine Admin
