Do the following need to be done?  
-> Add middle name to first name and last name fields

There is no middle name in EML. There is only given name or surName.

Given name should b repeated to accomodate multiple given names (a middle name is simply a second given name).

#4 - 09/21/2004 09:39 AM - Saurabh Garg

So, should we add middle name to the registry form?

#5 - 12/17/2004 04:17 PM - Matt Jones

Yes. We should add middle name to the form, and it should be serialized in EML as an additional givenName.
