Description			
<p>> Add middle name to first name and last name fields > Rearrange names into one line</p> <p>-> Dataset title should go before projects.</p>			

History

#1 - 02/05/2004 05:13 PM - Saurabh Garg

Made changes to fix

-> Dataset title should go before projects.

#2 - 04/28/2004 10:22 AM - Saurabh Garg

Do the following need to be done?

-> Add middle name to first name and last name fields

There is no middle name in EML. There is only given name or surName.

#3 - 09/21/2004 03:55 AM - Matt Jones

Given name should be repeated to accommodate multiple given names (a middle name is simply a second given name).

#4 - 09/21/2004 09:39 AM - Saurabh Garg

So, should we add middle name to the registry form?

#5 - 12/17/2004 04:17 PM - Matt Jones

Yes. We should add middle name to the form, and it should be serialized in EML as an additional givenName.
