

Metacat - Bug #130

remove the title hack from metacat

09/20/2000 01:05 PM - Chad Berkley

Status:	Resolved	Start date:	09/20/2000
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	metacat	Estimated time:	0.00 hour
Target version:	Beta2	Spent time:	0.00 hour
Bugzilla-Id:	130		
Description			
Remove the "hack" that puts the title of a document into the xml_documents table and replace it with a returnfield that specifies the path to the title in the document.			

History

#1 - 09/27/2000 09:11 AM - Chad Berkley

Because of complications with the dmanclient this will be fixed sometime after the kdi meeting.

#2 - 03/27/2013 02:13 PM - Redmine Admin

Original Bugzilla ID was 130
