

Metacat - Bug #1310

Old ACLs are overwritten by registry

02/02/2004 03:46 PM - Saurabh Garg

Status:	Resolved	Start date:	02/02/2004
Priority:	Normal	Due date:	
Assignee:	Saurabh Garg	% Done:	0%

Target version:	1.5	Spent time:	0.00 hour
Bugzilla-Id:	1310		

Description

The old ACL is overwritten by the registry. Possibility of this happening is very low. For this to happen, the document should be created in registry. Then it should be modified in morpho or any other tool to add additional ACLs in the documents. Then it should be modified again in registry.

If it is modified outside the registry, then the registry should not load the document.

History

#1 - 09/21/2004 04:04 AM - Matt Jones

Need to fix this for the next release (1.5).

#2 - 12/16/2004 02:07 PM - Saurabh Garg

Added code to fix this.

#3 - 03/27/2013 02:16 PM - Redmine Admin

Original Bugzilla ID was 1310
