Description

The following depends on amount of Javascript we want to keep in form.

From Rick's comments:

Under the DATA SET CONTACT ADDRESS section: when the user checks the 'use the same address as DATA SET ORIGNATOR' box, it would be reassuring if the corresponding data fields were populated with the values from the DATA SET ORIGINATOR section.

History

#1 - 02/20/2004 05:44 PM - Saurabh Garg

A new javascript function was written to fix this.
