

## Metacat - Bug #1346

### The results sent back in response to query should be sorted

02/12/2004 03:00 PM - Saurabh Garg

<b>Status:</b>	Resolved	<b>Start date:</b>	02/12/2004

<b>Bugzilla-Id:</b>	1346		
<b>Description</b>			
The results that are sent back to client from Metacat are random. It would be helpful if the records are sorted. Maybe it would be even more helpful if you could specify the field based on which they should be sorted.

#### #1 - 03/31/2004 01:22 PM - Saurabh Garg

This bug is fixed. The fix is not in the metacat code but in the resultset.xsl. So now when the result has been generated, xsl sorts it on basis of name and displays it accordingly.
