Target version:	1.2.0	Spent time:	0.00 hour
Bugzilla-Id:	1355		
Description Several lines of data in the db have encoding irregularities, probably b/c of mishandling of encoding in PLOTS db or EcoArt. Fix these. Records in question are: commName.commName ID = 17107 (Pani*ama*Coastal*Med?o) ?= 'o(' character commClass.commClass_ID = 957, CEGLO05254. Description contained unknown brackets or quotes (likely guess) commConcept.commConcept_ID: 1558,2168			

History

#1 - 10/27/2004 03:21 PM - Michael Lee

commName.commName ID = 17107 (Pani*ama*Coastal*Med?o) ?= 'o(' character FIXED!

commClass.commClass_ID = 957, CEGLO05254. Description contained unknown brackets or quotes (likely guess) -- will be replaced by new data DONE

commConcept.commConcept_ID: 1558,2168 FIXED

Fixes from NSE and logic where spanish characters can be applied.
