<b>Description</b>			
Need an administrative utility modeled after the srb admin utility for managing the distributed srb network, users on the network, and resources on the network.			

#### History

**#1 - 10/14/2000 03:43 PM - Matt Jones**

Reassigned to David because he will be implementing the admin client.

**#2 - 05/11/2001 01:44 AM - Matt Jones**

Deferred indefinitely because SRB deployment is in question. Will reopen later if we decide to deploy the SRB.

**#3 - 04/05/2002 03:47 PM - Matt Jones**

Consolidating products to those we actually are maintaining.
