

VegBank - Bug #1374

Get adding plant and adding community forms working with new model

03/22/2004 05:39 PM - Michael Lee

Status:	New	Start date:	03/22/2004
Priority:	Normal	Due date:	
Assignee:	Michael Lee	% Done:	0%
Category:	userLoad	Estimated time:	0.00 hour
Target version:	3.0.0	Spent time:	0.00 hour
Bugzilla-Id:	1374		
Description			
info can be found here: http://tekka.nceas.ucsb.edu:8080/wiki/Wiki.jsp?page=AddPlant			

History

#1 - 03/22/2004 05:40 PM - Michael Lee

projected to finish by end of day on Wed, March 24.

#2 - 06/02/2004 06:29 PM - Michael Lee

not really Nov1, but sooner than other bugs

#3 - 06/03/2004 07:04 AM - Michael Lee

depends on CRUD

see example here:

<http://tekka.nceas.ucsb.edu/~lee/forms/addNewPlant.html>

#4 - 09/11/2006 01:47 PM - Michael Lee

Can add plants and communities via VegBranch. Or however you want to create the XML. We could create a web form that would create the XML behind the scenes and give it to the XML loader for addition when you are done.
