

Metacat - Bug #1390

add UCNRS to the ldapweb.cgi management lists

03/24/2004 02:15 PM - Matt Jones

Status:	Resolved	Start date:	03/24/2004
Priority:	Immediate	Due date:	
Assignee:	Saurabh Garg	% Done:	0%
Category:	registry	Estimated time:	0.00 hour
Target version:	1.4	Spent time:	0.00 hour
Bugzilla-Id:	1390		

Description

The UCNRS ldap tree can not be managed through the web scripts now, partly because these entries are in a different tree (o=ucnrs.org) than ecoinfo (dc=ecoinformatics,dc=org). Need to make the changes that allow creation of new LDAP entries for UCNRS and changing and resetting the passwords for these accounts.

I think this is now complete, and will be released with 1.4.0. Sid, can you verify this and close the bug if true? Thanks.

#2 - 09/21/2004 09:38 AM - Saurabh Garg

This bug is fixed and done.
