Blocks SEEK - Bug #1789: Create database for TOS version 1.1.0	**Resolved**	**11/29/2004**

History

#1 - 06/14/2004 12:49 PM - Aimee Stewart

Bob Peet promised the hickory data at our Santa Barbara meeting (January 2004?)
He will get the data to Jessie and Robert, who will convert it to the TES, then
pass it along to us. We revisited this issue in Edinburgh (May 2004) and this
plan is still in place.

German mosses data - we think that Walter Berendson's data is coming to us fromm
Jessie - will confirm this with her.

Perhaps we should consider using the Ant data from Dave Thau for this. Check on it.

#2 - 07/12/2004 08:34 PM - Aimee Stewart

Robert Kukla has provided the moss data in TES format.

#3 - 11/29/2004 10:10 AM - Aimee Stewart

Received moss data in TCS - validates against v0.86 (Aimee's modifications) and
against v0.88(Trevor and Robert's prefered version). Must put this in the new
taxon 1.1.0 database.
