**Description**

decaptialize Spatial Coverage in the bold block.

longitude is spelled wrong.

In the "add" dialog box, remove the comma after "e.g." in the 2nd line.

The description text box has a scroll bar even when there is no text in the box. This should be fixed so that the scroll bar only shows up when the user types past the current length of the box.

add a period or colon after "Set the geographic coordinates which bound the coverage". There needs to be a space between the words "longitude" and "values". combine the two sentences starting with "Drag or click.." and ending with "..if necessary.". "degreea" should be changed to "degrees".

History

#1 - 03/31/2004 08:46 AM - Dan Higgins

All typo comments have been fixed.

#2 - 03/31/2004 09:23 AM - Dan Higgins

fixed layout so that scrollbar only appears when text exceeds box size.

This completes the fixes for this bug.
