#### Description

i created a package with the wizard which I then saved locally and to metacat. i closed the package, then reopened it using the "open existing packages" link in the main screen. now only the local icon is showing and it refuses to believe the package lives on the server as well as the local disk.

#### History

##### #1 - 04/04/2004 01:34 PM - Dan Higgins

Apparently this bug was fixed when code that incorrectly looked for data in profile rather than config was corrected.

##### #2 - 03/27/2013 02:17 PM - Redmine Admin

Original Bugzilla ID was 1422
