Bugzilla-Id:	1471			

Description

Changes in datatables are not being detected properly by the "Save" command, making it impossible to save properly (Code thinks the Data Package is current and does not need to be saved.)

History

#1 - 04/12/2004 01:54 PM - Dan Higgins

added statements to note changes in the data table so that Save command knows that data has been changed and Save will update the package.
