Bugzilla-Id:	1474		

Description

1) The "Citation" screen that is accessible from the taxonomic coverage screen does not work. After entering information and pressing "Ok", nothing happens. Cancel results in going back to the taxon screen with no changes.

2) When adding a Party on the citation screen, if a reference is chosen to a previously entered party then click ok, the name field in the party list does not show the name, and when "Edit" is clicked it is no longer set as a reference, instead displaying it as a regular party with editable fields and no name.

History

#1 - 04/12/2004 02:22 PM - Perumal Sambasivam

resolved (1). (2) seems to be fixed too (atleast for the cases i tried). Now, I am not able to reproduce this bug.. maybe this problem arises in certain conditions only. I will look more into it.

#2 - 04/12/2004 02:55 PM - Perumal Sambasivam

(2) is also fixed.
