<b>Description</b>			
Clicking on the "Window" menu on the main screen, only "Morpho" is listed, not the dpw window, which is open and should be listed.

DataPackageWizard is a different type of window (not UIContoller based). Probably would be nice to have appear in Window menu, but not a trivial job.

The user guide window also does not show up in the window list, by the way (version 1.5.1).
