

Morpho - Bug #1498

movement of keywords and people in dpw is problematic

04/15/2004 01:33 PM - Andrea Andrea

Status:	Resolved	Start date:	04/15/2004

Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	1498		

Description

DPW step 3 of 15, after adding keywords and wanting to move them in the "define keyword set" screen, you have to select the word you want to move for each move (up or down), rather than it remaining selected so you could move it more than one spot at a time. The same problem occurs in moving the keyword lists in the "Keywords" screen.

Has duplicate Morpho - Bug #1381: keyword set editor efficiency problems

In Progress 03/24/2004

History

#1 - 04/15/2004 02:09 PM - Andrea Andrea

This also occurs for lists of owners, contacts, or associated parties in the dpw.

#2 - 04/15/2004 02:23 PM - Andrea Andrea

And also for personnel of a "larger umbrella research project".

#3 - 04/17/2004 02:25 PM - Dan Higgins

This is really a function of the underlying custom list component. ALready have bug 1381 to handle this

- This bug has been marked as a duplicate of 1381 ***
