#### Description

The main morpho window as well as the dpw windows for steps 1-15 DO show up in the taskbar at the bottom of my computer screen as they should, but windows such as those that appear when adding keywords or adding contacts, DO NOT appear in the task bar, making it hard to get back to those windows.

#### History

Thus is because some 'windows' are modal dialogs and such dialogs never show up in the taskbar. Their parent is on the task bar and clicking on the parent will bring the modal dialog to the front. Any changes would involve considerable changes.
