Description

Adding in citations during the taxonomic screen. The "Mo...." buttons are a little confusing? Why are there two of them and what do they mean?

The "Party" colum label is confusing. This needs to be explained if it is in Morpho. "Role" can you only add authors here? Is an editor an author? Looks great though...eventually a citation import wizard would be the best.

I believe the buttons are "Move up" and "Move down" and are readable in the current generation of Morpho (1.10/2.0). There is only the Role of "Author" - should there be more?

Leaving this as is - seems to be a conscious decision that only Authors are added to this section.
