Description			
Port SRB1_1_8 changes to Linux x86. SRB1_1_7 has been ported to run on Linux, but in parallel to changes made to SRB1_1_8. Linux specific code changes need to be moved to the 1_1_8 code.			

History

#1 - 10/14/2000 03:41 PM - Matt Jones

Reassigned to Owen because he has main responsibility for the SRB work.

#2 - 04/12/2001 09:48 AM - Matt Jones

Lowered priority because SRB no longer in immediate plans for deployment.

#3 - 05/11/2001 01:45 AM - Matt Jones

Deferred indefinitely because SRB deployment is in question. Will reopen later if we decide to deploy the SRB.

#4 - 04/05/2002 03:47 PM - Matt Jones

Consolidating products to those we actually are maintaining.
