#### Description

Move Up & Move Down buttons on party lists (in wizard, citation & project) do not update DOM immediately - this means that if a user re-orders parties, then moves to a different page, then goes back to original page, the parties will get re-loaded from the dom in the original order, not the new order

#### History

##### #1 - 04/26/2004 10:22 AM - Matthew Brooke

now call updateDOMFromPartiesList() from onRewind() and onAdvance() actions to fix this problem
