Morpho - Bug #1534

DPW & Project page: Edit button always edits last Party in list, irrespective of selection

Description

In pages with party lists (CustomList displaying parties such as Owner, Contact etc), if the user hits "edit", the dialog always shows the last entry in the list, irrespective of what is selected.

This is also a problem with the party list in Project page, but is not a problem with Citation page party list, since there is no update from the DOM on this page - update is done by re-calling the getPredicate() methods on all the party objects in the list.

History

#1 - 04/26/2004 10:23 AM - Matthew Brooke

now call updateDOMFromPartiesList() from onRewind() and onAdvance() actions instead of from new and edit button actions, since this method call deselects the user-selected entries, whcih is why the wrong party was being edited
