Bugzilla-Id:	1544			

Description

Fix web service actor code --> Ilkay, Chad

This involves completing the code for a wider variety of data types, and making
sure that we support arrays.

1) New architecture for the class
2) Multiple output
3) Use java APIs
4) Add additional type support --> To support arrays of {int, short, long,
string, double, float, boolean}; Date

History

#1 - 05/03/2004 10:06 AM - Ilkay Altintas

Fixed... The only types left unsupported is short, float and their array as
there are no short and float types in Ptolemy. Will fix this by introducing an
array of original types and then casting them to Ptolemy types.
