Description

There are sometimes problems when the kepler directory is in a path that has 'spaces' like "Program Files". Should figure out the cause and fix

History

#1 - 06/14/2004 02:35 PM - Chad Berkley

I'm not sure if this is an issue anymore....probably should look into it when the installer is built

#2 - 03/01/2005 10:52 AM - Dan Higgins

In general, this problem has been fixed (although we should keep in mind that specific actor may still have a problem.) (CommandLine actor problem with this in Windows has been fixed.)
