

Kepler - Bug #1581

"New actor" instantiated from command line application and saving actors in specified libraries

05/26/2004 01:04 PM - Efrat Jaeger

Status:	Resolved	Start date:	05/26/2004
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	1581		

Description

Something between the "New Actor" and the "command line" actor. The New actor will be instantiated to perform the command. The actor creator will take care of specifying the necessary inputs and outputs types.

Add the save in library method a parameter for specifying a specific library for storing the actor.

I'm don't think this is needed now because of changes in PTII4.0.
