

SEEK - Bug #1613

organizations missing from web auth dropdown

06/28/2004 01:49 PM - Matt Jones

Description

When you try to log into the SEEK wiki, the dropdown list containing organizations is missing several critical organizations, including NAPIER and UVM. We need to query the LDAP and get the complete list of organizations to be included in this dropdown. This is high priority because some SEEK members will not be able to log in and contribute to the site until their organizations are added to the list.

History

for the short term, have added NAPIER, UVM to list manually. We can still rewrite the code to generate the list dynamically if it's warranted.
