

SEEK - Bug #1616

RSS feed shows incorrect URL

07/02/2004 03:59 PM - Dave Vieglais

Status:	Resolved	Start date:	07/02/2004
Priority:	Normal	Due date:	
Assignee:	Steve Tekell	% Done:	0%
Category:	web	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	1616		
Description			
The RSS feed (http://seek.ecoinformatics.org/rss.rdf) from the wiki site (http://seek.ecoinformatics.org/) is generating an incorrect URL: http://lternet-221.lternet.edu:8081/SeekWiki/ This needs to be corrected to properly support the use of RSS feeds from the wiki.			

History

#1 - 07/06/2004 09:00 AM - Steve Tekell

The base URL was not set, so it wasn't really generating any RSS feed. The incorrect URL is just a part of old data from the last time it was generated a few months ago. I have set the base URL to enable the RSS feed. The corrections are in CVS as a part of version SEEK_WEB_2_0_2 but not yet deployed. FYI deployments of new webapps require administrator access due to unresolved problems with Tomcat configuration.
