

Morpho - Bug #1672

Unable to edit online distribution url for multiple data objects

09/09/2004 03:24 PM - Andrea Andrea

Bugzilla-Id:	1672		

Description

Due to bug [#1670](#), the user has to type in the correct URL for the data object using the Morpho Editor (i.e. replace "ecogrid://knb/chadden.36.1" with "http://metacat.nceas.ucsb.edu/knb/metacat?action=read&docid=chadden.36.1").

However, when trying to change the URL for MORE THAN ONE data object in a data package, the following error message is encountered when trying to exit the editor:

Exception in converting edited XML to DOM!null.

After clicking OK in the error message window, the butterfly keeps flapping but the dp is never displayed.

History

#1 - 12/08/2004 02:32 PM - Andrea Andrea

After the newest version of metacat (1.4.0) was released, the problem of having to manually correct the URLs for the location of data is solved if you re-save the data package to the network. However, if a user would want to edit the URLs for more than one data object for some reason in the future, this bug would still pose a problem.
