Description

This bug is continuing from bug# 968 and is dependent on bug # 1132

Access control to handle eml version 2.0.1 has been implemented. But when new
version of eml (v2.1.0) is released, access control for handling that version
will be required.

History

#1 - 09/27/2006 06:35 AM - Saurabh Garg

Eml210SAXHandler.java is a copy of Eml200SAXHandler.java and this is the file which needs to be modified. I think code is already in place which
will use Eml210SAXHandler.java when a eml2.1.0 document comes in.

#2 - 02/09/2010 01:21 PM - Michael Daigle

This was implemented in Metacat 1.9.1
