

Metacat - Bug #168

eliminate title attribute from xml_documents

11/13/2000 04:46 PM - Matt Jones

Status:	Resolved	Start date:	11/13/2000
Priority:	Normal	Due date:

Target version:	Release1.0	Spent time:	0.00 hour
Bugzilla-Id:	168		

Description

The current 'title' attribute in the xml_documents table and xml_revisions table is no longer needed because of the flexible 'returnfield' query mechanism that allows the query to specify which fields to return. Thus, we need to delete it from the tables, and delete all of the mentions of it from the code, including the DBSAXHandler code that updates this field on insert and update.
