Target version:	Release1.0	Spent time:	0.00 hour
Bugzilla-Id:	171		
Description			
create an action handler that takes a stylesheet and some other parameters and runs a document through a specified stylesheet and returns the result. Talk to Dan Higgins for more info on this feature request.			

History

WONTFIX. Feature is not needed. Transforms can be applied in "style-sets" now and there is little reason for us be a generic transformation engine.
