

Metacat - Bug #1711

apostrophe in text element causes xslt error

09/30/2004 03:41 PM - Chad Berkley

Bugzilla-Id:	1711		
Description a text element that contains an apostrophe causes metacat to throw an xslt error. It says that the character 0x19 is invalid and can't be transformed. it seems like an apostrophe shouldn't be a problem in a tag like <para> so this needs to be handled by metacat. probably "" should be replaces with "" when a file is uploaded.			

History

#1 - 01/07/2005 03:02 PM - Saurabh Garg

Not able to reproduce this. The code added to solve bug 1538 maybe taking care of this now. Closing the bug.
