ENM IIIA - Update GARP Workflow

10/22/2004 11:14 AM - Dan Higgins

Status:	Resolved	Start date:	10/22/2004
Priority:	Normal	Due date:	
Assignee:	Dan Higgins	% Done:	0%
Category:	beam	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	1738		
Description			
It was decided to make much of the GARP post-processing analysis optional at this point in time (e.g. the statistical analysis of commission/omission, best rule set, ROC analysis) The existing fullGARP workflow should be updated to show this

Blocked by SEEK - Bug #1737: ENM III - ENM/GARP Calculations		Resolved	10/22/2004

History

#1 - 08/17/2005 01:18 PM - Dan Higgins

commission/omission and best ruleset calculation have been implemented. ROC analysis is available using an RExpression actor (since ROC is an available R package.)

#2 - 04/04/2007 03:46 PM - Dan Higgins

finished
