Implement decisions from the EML2 workshop in these modules, and document.

#4 - 07/23/2001 01:42 AM - Matt Jones

Need to resolve redundancy between eml-physical and eml-distribution. Possibly eliminate eml-distribution and fold the few fields needed from it into another module (possibly, eml-physical, or eml-resource).

#5 - 12/10/2001 10:28 PM - Matt Jones

Moved fields from eml-distribution into eml-resource and completely removed the eml-distribution modules. eml-physical is now a distinct module with no overlapping fields.
