<b>Bugzilla-Id:</b>	1769		

#### Description

The access permissions re-set to yes for the question "Would you like to allow the public to read your dataset?" in two places:

1) When you are creating a New Data Package and you are at the Access Permissions step: if you select "No, don't give read-only access to public.", go back to the previous step (Methods), and then go forward (hit Next) to the Access Permissions step again, it defaults to "Yes, give read-only access to public."

2) When you have a Data Package opened and you select Access Permissions under the Documentation menu, it defaults to "Yes, give read-only access to public." even if you had chosen "No" before.

#### History

##### #1 - 05/26/2005 12:44 PM - Veronique Connolly

Bug is fixed.

##### #2 - 03/27/2013 02:18 PM - Redmine Admin

Original Bugzilla ID was 1769
